Recipient of the Sophie Hulthén's Circus Grant 2016

It is the single most valuable grant to a circus student in Europe and it will be awarded to a student showing exceptional talent in combination with successful studies and artistic maturity.

"She not only tests the limits of the circus discipline known as "Hand Balance", she extends it into new forms of work and expression. With simplicity and natural presence, she conveys something we identify as important. Sunniva challenges the world around her, turns it upside-down and brings all of it to a head".
